

MODUS

MODUS PEX-A FLEXIBLE PIPE SYSTEMS
First PE-Xa Producer of Türkiye

"MODUS" combines our technical knowledge with innovative PEX-A pipe and fittings products.

our Certificates

"MODUS" today:

- 'Modus-group,' a pioneering leader in the production of cutting-edge sanitary systems, plastic piping, and metal water distribution systems in both Turkey and across the globe.
- Situated in Kocaeli, Turkey, our production facility boasts state-of-the-art extrusion lines, making it not only the largest but also the first PEXa production facility in Turkey. Within this factory, we manufacture a diverse range of products, including PEXa, PE.RT-AL-PE.RT, PEXb-AL-PEXb, PE.RT EVOH pipes, and metal systems. The 'Modus-group' is dedicated to delivering products crafted with innovative and high-precision technologies, catering to the global building water systems industry.
- The 'Modus-group' embarked on its mission with the core principle of establishing a robust global presence through its extensive network of manufacturing facilities and representative offices. It is renowned for its ability to provide innovative solutions in the field of sanitary and water distribution systems. As a pioneer in Turkey, the group takes pride in introducing PEX-A pipe production lines for the first time in the country, offering a comprehensive product portfolio that encompasses underfloor heating pipes and systems, PPRC pipes and fittings, metal valves and fittings, sewage water pipes and fittings, along with PE compression pipes and fittings.
